CITY OF LODI INFORMAL INFORMATIONAL MEETING "SHIRTSLEEVE" SESSION CARNEGIE FORUM, 305 WEST PINE STREET TUESDAY, JUNE 5, 2001

An Informal Informational Meeting ("Shirtsleeve" Session) of the Lodi City Council was held Tuesday, June 5, 2001 commencing at 7:00 a.m.

A. ROLL CALL

Present: Council Members - Hitchcock, Howard, Land and Mayor Nakanishi

Absent: Council Members – Pennino

Also Present: City Manager Flynn, City Attorney Hays, and Deputy City Clerk Perrin

B. CITY COUNCIL CALENDAR UPDATE

Deputy City Clerk Perrin reviewed the weekly calendar (filed).

C. TOPIC(S)

C-1 "Review of proposed 2001/03 Financial Plan and Budget"

Deputy City Manager Keeter reported that the City Council to date has reviewed the fiscal goals and policies, departmental accomplishments, future and current City projects, the revenue assumptions, and the significant expenditure and capital improvement requests for each department. In addition, the City Council conducted a Special Town Hall meeting regarding the budget, and discussions will now take place on the operating portion of the budget, which are the day-to-day operating costs that departments anticipate for the budget years. The Council will review the fund balances at the next Shirtsleeve Session, and it is anticipated that the budget will be presented for Council approval at the June 20 regular City Council meeting.

Ms. Keeter reviewed the 2001-03 Financial Plan and Summary (filed), highlighting the significant changes in the 2001/02 and 2002/03 recommended budget amounts, as follows. It was noted that within the 100 Series (Personnel Services) all of the medical, dental, vision, and chiropractic amounts have been removed from each department's budget and added as one lump sum in Human Resource's budget.

- City Clerk Administration. The 100 Series in budget year 2002/03 includes funds for a full-time administrative clerk position.
- Special Payments Administration. The 300 Series (Supplies, Materials & Services) includes a significant expenditure request for LAFCO, which was previously submitted to the City Council.

Council Member Land reported that LAFCO's fee may end up being a bit higher, because the special districts have opted not to participate. City Manager Flynn responded that he has not yet received any information regarding this. Council Member Land indicated that LAFCO will be meeting regarding this subject on June 15, and he would get additional information to the City Manager.

- Community Promotions. The 600 Series (Special Payments) includes a significant
 expenditure request for the Downtown Lodi Business Partnership (DLBP). It was
 noted that this account also includes the contributions to the Lodi Conference and
 Visitors Bureau (LCVB) and the regular contribution to the Chamber of Commerce for
 fireworks and billboard advertisement.
- City-wide Postage. The 200 Series (Utilities & Communication) has increased because the funds for postage have moved from each individual department into one City-wide account.

- Information Systems (IS). In the 300 Series, funds have been moved from data processing into IS as one point of coordination for training and education. Additionally, there is an increase in data processing in the 300 Series, because of ORCOM and JDEdwards, which includes AS/400 support and computer lease.
- Finance Administration. The 100 Series has decreased because of the departmental reorganization, which shifted one individual from administration into the revenue section.
- Finance Accounting. In the second budget year, the 100 Series includes a significant expenditure request for a full-time accounting position and the conversion of two part-time contract employees to full time. In the 300 Series, the KPMG expenditure, which was experienced City-wide, falls under the accounting section.
- Finance Revenue Division. In the 100 Series, the reorganization of the position from administration into revenue explains the increase. In addition, a Customer Service Representative was approved mid-budget cycle and is now incorporated into the budget. In the 300 Series, there is an increase due to the bank service charges associated with the payment of utility bills via credit card.
- Finance Field Services. The increase in the 100 Series is due to departmental reclassifications.
 - Council Member Land asked if the City would be assuming collection of revenues for the DLBP and whether it would be a significant expenditure to the City.
 - City Manager Flynn responded in the affirmative and noted that no additional staff would be needed.
- City Attorney. The 100 Series has decreased due to the removal of the medical, dental, vision, and chiropractic expenses.
- Human Resources. The 300 Series includes the significant expenditure request for a reorganization study of the department and an increase in advertisements for employee recruitment and for fingerprinting services.
- Risk Management. The 100 Series includes an increase due to the reorganization and shift in an employee from administration to risk management. The 300 Series includes the significant expenditure request for the Injury Illness Prevention and Back Injury Programs.
- Community Improvement. The 100 Series includes a significant expenditure request for a Code Enforcement Officer.
- Repair and Demolition. The 300 Series includes funds for demolition services.
- **Building Inspection**. The 300 Series includes increased contract services for inspectors because of the high activity level in permits for mainly residential housing. This fund was increased to meet the demand.
- Police Department Animal Services. The increase in the 100 Series is a result of the mid-year budget adjustment that added a full-time Animal Services Officer.
- Police Department Administration. The 100 Series increased significantly because of the reorganization that moved positions from the detective division into administration. This also includes a significant expenditure for part-time officers. There was a minor decrease in the 300 Series due to computer and radio maintenance and support for other technology. It was noted that staff is looking into radio maintenance contracts for all departments.
- **Fire Administration**. The increase in the 200 Series is because the funds for pagers are now included in another area.
- Emergency Services. The 100 Series includes a significant expenditure request for two Firefighters and one Battalion Chief in year one and for three Firefighters in year two.

- Public Works City-wide Utilities. The 200 Series is reflective of what is happening with utilities, including electric, sewer and water, and refuse collection.
- Public Works Administration. The 300 Series includes a significant expenditure request for solid waste contract services.
- Public Works General Engineering. The 100 Series includes the significant expenditure request for an Engineering Technician. The increase in the 300 Series is reflective of what is happening with plan check services.
- Public Works Facilities Maintenance. In year one a significant expenditure request
 is included for a Facilities Supervisor in the 100 Series. The 300 Series has
 increased because the janitorial and landscaping services have increased with the
 addition of the train depot and the mid-year addition of Fire Station #4.
- Public Works Streets Administration. The 100 Series increased due to the mid-budget cycle reorganization and hiring of a Streets Contract Administrator at the Municipal Service Center and clerical reclassifications.
- Public Works Street Cleaning. The 100 Series includes the downtown labor, and in the 300 Series, a significant expenditure request is included for street sweeping and landscape maintenance to cover six months, which will increase in year two as construction downtown is completed.
- Recreation Administration. In the 100 Series, the number increased because of the reorganization of one clerical position from parks to the recreation division. The 300 Series increased because of department brochures and the Grape Pavilion master lease for the rental of facilities for recreation programs and other activities. The remainder of recreation's budget was fairly flatlined.
- Parks Administration. The 100 Series was decreased because of the shift of a
 clerical position into recreation. This Series also includes a significant expenditure
 request (filed) for \$15,000 for the hiring of a part-time Docent Coordinator/Naturalist
 at Lodi Lake. The Docent would be responsible for recruiting and training volunteer
 Docents, scheduling guest speakers for required meetings, soliciting interest for
 programs from community groups and schools, and coordinating and interpreting
 nature area tours and Discovery Center exhibits at the lake.
- Parks Sports Facilities Maintenance. This account includes the conversion of two part-time contract employees to full-time status.
- Parks Lodi Lake Park. The 100 Series in the first year includes the part-time laborer position to handle the Maxicom irrigation system. There is also an increase in the 300 Series for grass, seed, and chemicals since the lake and its features have expanded.
- Park Programs. The 300 Series, which included donations acquired by former Parks Superintendent Dwight Dauber, has decreased as the funds have been exhausted.
- Library Administration. Year one includes a significant expenditure request for extending the hours on Sunday and includes a part-time Reference Librarian. The increase in the 500 Series (Equipment, Land & Structures) is for the digital copier request.
- Community Center Youth Commission. The 300 Series increased to cover general supplies and materials for the commission, as it has increased its activities within the community by offering awards and holding more events and conferences.
- Arts Specialty Classes. The increase in the 300 Series is for the cost of instructors, which is revenue-neutral, as it also brings in money from the fees.
- Lodi Arts Commission Grants. The 600 Series includes an increase in the arts grants.
- **Hutchins Street Square Pool**. The 100 Series includes part-time hours for the swim programs at the Square.

- Community Center Administration. The 200 Series has risen due to increased postage for the mailers that Hutchins Street Square sends out on its many events.
- Performing Arts Center. The 100 Series incorporates the significant expenditure request for a Stage Tech Manager.
- **Special Revenue**. It was noted that the Community Development Department total should be on the same line as the dollar amount for Community Development Block Grant (CDBG) funds.
- Public Works Department Dial-A-Ride Transit. The 100 Series in this account, as well as the GrapeLine Fixed Route System account, has a zero balance as the funds were taken out and moved under Transit Administration. This was done for better accounting purposes. The 300 Series increased in anticipation of contract services and the contract with the operators.
- **Public Works Sewer Administration**. The 100 Series includes the request for a two-year contract employee for management analyst-type services.
- Storm System Maintenance. The 600 Series includes a significant expenditure request for the National Pollutant Discharge Elimination System (NPDES) permit services. This may, however, move from the 600 Series back to the 300 Series, because the funds are actually to hire someone to handle the permit services; however, the bottom-line number will stay the same.
- Water Administration. The 100 Series increased because half of the engineer's salary was added to this account, with the other half still being charged to Water/Wastewater.
- **Water Distribution**. The numbers in the 300 Series fluctuate from year to year as the work depends on the residential program's cyclical trend.
- Electric Utility Construction & Maintenance Supervision. The 100 Series includes a significant expenditure request for line crew and contract services, and year two increases because of the apprenticeship program.
- **Electrical Services**. The 300 Series reflects a significant expenditure request for professional services in addition to the regular expenses.
- Electric Engineering & Operating Supervision. The 100 Series includes a significant expenditure request for a temporary AutoCAD operator, and the 500 Series includes a request for office furniture replacement.
- **Bulk Power Purchase**. This account was estimated by Electric Utility Director Vallow and the City's consultant Boris Prokop with Borismetrics. Not knowing what the energy situation will be for the following year, the same amount was estimated.
- System Maintenance Overhead. The 100 Series includes contract employee salaries.
- **Substation Maintenance**. The 300 Series includes the significant expenditure request for painting the substations.
- Internal Service Human Resources. It was noted that Human Resources has seen an increase in the General Liability account, along with the increase in Other Insurance, due to the addition of the medical, dental, vision, and chiropractic expenses for all departments.

Council Member Hitchcock questioned if the estimates for general liability and workers compensation were based on a new actuarial study.

City Manager Flynn responded that Senior Management Analyst Kirk Evans and the City Attorney's Office made the estimates by looking at the City's history, what lawsuits are on the horizon, and at an actuarial study. The account, however, represents more than what the City expects the costs to be.

In response to Council Member Hitchcock regarding what large settlements the City might be anticipating, City Attorney Hays indicated that there are a number of Police Department issues, some of which are in Federal court, the Quenzer case, and possible litigation regarding a recent police chase.

Council Member Hitchcock asked why the City decided to separate out the departments' mailings and postage, yet Hutchins Street Square's is separate.

Accounting Manager Ruby Paiste responded that this covers mostly the mailing of utility bills, which accounts for 90% of the cost. Finance recently contracted out the mail services to Pre-Sort, and the funds were put under one account to make it easier. The funds represent mainly small or specialty mailings under each individual department. Ms. Paiste indicated that every department sends the mail to Finance for processing, and the reason that Hutchins Street Square has money in its account is that it handles its own specialty mailings for events.

Community Center Director Charlene Lange clarified that Hutchins Street Square handles all of its mail processing. Council Member Hitchcock suggested that staff look into Pre-Sort handling Hutchins Street Square's mail processing as well.

In response to questions by Mayor Nakanishi and Council Member Hitchcock, Deputy City Manager Keeter responded that the 9% increase is for the entire budget, which includes the bulk power purchase and the capital and enterprise funds. In response to Mayor Nakanishi, Ms. Keeter stated that at the next Shirtsleeve Session, staff would break the figures and percentages down by department and fund so that Council can see the comparisons.

City Manager Flynn added that this is just a listing and detail of the line items for the expenses in all funds. The numbers will then be entered appropriately into the budget for the whole picture.

Council Member Hitchcock stated that Alex Burnett with PFM recommended that the City hold its expenses at only a 3.5% increase in order to fund the public safety building.

City Manager Flynn explained that the recommendation was for the general fund and the 9% increase includes all of the funds (general, capital and enterprise funds).

Deputy City Manager Keeter added that the general fund revenue projections are coming in much stronger, and the City will actually see close to a 9% increase.

In reply to Mayor Nakanishi, Deputy City Manager Keeter explained that the budget is balanced, and staff is still making adjustments as changes come in and looking at fund balances, reserves, etc. and are striving for a 15% reserve.

Mayor Nakanishi stated that he would like to see the budget in its entirety to get a global view of the overall situation.

City Manager Flynn explained that government funds come in from many different sources that are earmarked for specific issues. The funds may come in during one budget year, but aren't expended until the following budget year. At the next Shirtsleeve Session, staff will match the revenues and expenditures.

D. <u>COMMENTS BY THE PUBLIC ON NON-AGENDA ITEMS</u>

None.

E. ADJOURNMENT

No action was taken by the City Council. The meeting was adjourned at approximately 8:14 a.m.

ATTEST:

Jennifer M. Perrin Deputy City Clerk

Mayor's & Council Member's Weekly Calendar

WEEK OF JUNE 5, 2001

Tuesday, June 5, 2001

2001-03 Financial Plan and Budget SIGNIFICANT EXPENDITURE REQUEST AND STAFFING CHANGE

ACTIVITY:

Parks Program Specialist

REQUEST TITLE:

Part Time Docent Coordinator/Naturalist

REQUEST SUMMARY

Hire a part-time Docent Coordinator / Naturalist. This position would allow a minimum of 10 hours to a maximum of 30 per week (not to exceed 990 annual hours) depending on seasonal operations at a hourly rate of \$11.64.

PRIMARY OBJECTIVE

This position would assist in the development and implementation of the Lodi Lake Environmental and Natural Resources educational programs. Duties would include recruiting and training voluntary Docents, scheduling guest speakers for required meetings, soliciting interest for programs from community groups and schools and coordinating and interpreting nature area tours and Discovery Center exhibits. This position would assist in the development and publication of flyers, brochures and visitor attendance records.

SUMMARY OF FACTORS DRIVING THE REQUEST FOR CHANGE

As our documented records show interest of the Lodi Lake Park continues to steadily increase (see attachment). The need for an Environmental and Natural Resources educational program coordinator is essential for future development of the Lodi Lake Nature Area Docent program. This position will assist in our efforts to educate present and future generations regarding our park system gem facility of "Lodi Lake Park".

ALTERNATIVES

Continue to operate the Discovery Center and Docents program utilizing existing staff resources and volunteers.

COST SUMMARY	2001-02	2002-03
Additional Costs		
Staffing	\$12,000	\$12,600
Supplies, Materials, Services	\$3000	\$3000
Minor Equipment
